

## What's different about Our GIFT For You?

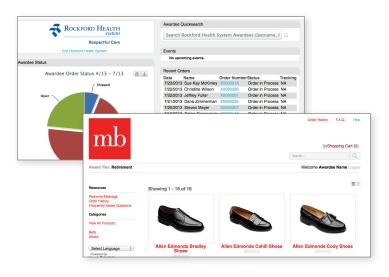

For starters, it's not just a gift for your employees. It's a gift for you, the program administrator. We developed this software with your needs in mind, to make program administration a breeze, save you precious time and earn you a well-deserved pat on the back. You get:

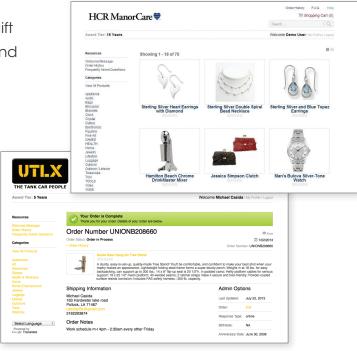

Flexible online reporting, social media integration and sharing features with Facebook, Twitter, LinkedIn and a gift selection that's second to none – all backed by **THE BEST** one-on-one customer care in the industry. (*No, we're not shy about it!*)

Your employees have never seen a gift catalog like ours. Even in the lower price points, the selection is full of high-end brand names. And when awardees access Our GIFT For You online, they'll find an even broader collection of items, plus:

Multiple product images, YouTube videos and gift reviews to engage employees and help them find

exactly what they want or need.

Our GIFT For You will change the way you – and your employees – think about service recognition programs. Want to know more? Our webinar walks you through all the program highlights.

Give us a call and we'll set you up!

Take a bold step forward and call Award Concepts today.
